- 112 _____ Pair of 2-man crosscut saws, one 56-inch and one 66-inch, both will clean to very good.
- 113 _____ Pair of 1 or 2-man crosscut saws, one has an intact auxiliary handle, both will clean to usable condition.
- 114 _____ Nice 5-foot pike pole likely used in ice harvesting, very good.
- 115 _____ D.R. BARTON 11.5-inch broad-axe could stand to be re-hefted, very good overall.
- 116 _____ O.W. BURRITT WEEDSPORT, NY Patent (U.S. No. 266,604) double seaming machine for tin roofs, very good.
- 117 _____ Progressive X359 hand-cranked bead rolling machine AUG. 24, 1915, has broken crank handle but it can be removed and replaced with another crank, will clean to very good overall.
- 118 _____ RIDGID 72-inch wallpaper trimming rule, very good.
- 119 _____ Cast iron copy press, screw is free but there is a lot of rust, will clean to at least good overall condition.
- 120 _____ FOLEY A253 saw sharpening tool, first we have seen so we cannot say whether or not it is complete.
- 121 _____ Log tong with revolving jaws, wooden handle has big splinter off one side, good overall.
- 122 _____ Smaller vise that looks like a leg vise but does not have a leg.
- 123 _____ Power kick wheel with nice cast iron pedal, very good.
- 124 _____ Broad axe head marked with MOORE TOLEDO O. mark, very good overall.
- 125 _____ Large ice saw with 60-inch blade, 76-inches long overall. Needs turned wooden handle to be installed into socket at end of handle bracket, very good overall.
- 126 _____ Fine poll adz with very nice blade, has new handle that will need to be cut down to fit the socket better, will make a fine user.
- 127 _____ Three crosscut saws: 60-inch 2-man model that is missing one of the handles, blade will clean to very good; 42-inch 1-man model with broken wooden handle, with cleaning and new handle will make good user; and a 72-inch model that is missing one handle, but will clean to good or better usable condition.
- 128 _____ Pair of 66-inch crosscut saw blades, can be cleaned up and put to use if you have handles or cut up and used for knife blanks.
- 129 _____ Lot of planes and plane parts: Two Stanley #80 scrapers; one just a frame and one is complete with rusty blade; #83 scraper missing the roller and having a chunk missing from one side of handle; Stanley #3C smooth plane with chip in rear of throat, will clean and tote needing to be glued; and a STANLEY marked scraper blade.
- 130 _____ Pair of large calipers, both have light rust and will need to be cleaned.
- 131 _____ Pair of drawknives: 10-inch HICKORY that is missing one handle and has some light to moderate rust; and a very good 9-inch ZENITH from MARSHAL-WELLS HDWE (Duluth, Minn), very good with wooden blade protector.
- 132 _____ International Silver Co. I.S. Silver Soldered SJ0959, silver piece that look like it would hold a small ear of corn.

- 133 _____ Unknown make de-horning saw with nice wooden handle, very good overall.
- 134 _____ Large round MIDWEST TOOL COLLECTORS embroidered patch, very good.
- 135 _____ Ackerman-type try and miter square with bevel, very good overall.
- 136 _____ Small E. PRESTON router plane, complete and very good overall
- 137 _____ Small 10-inch ARCHER hand saw with open handle that is missing the top spur, two split nuts attach handle to blade, intact nib and small piece broken out of the business end of the saw.
- 138 _____ E. Preston double side rabbet plane, similar to a Sargent #81, this one is complete and very good.
- 139 _____ Lot of MWTCA Gristmill newsletters.
- 140 _____ Mystery thermometer in a 19-inch brass tube with sharp point. Thermometer goes from 60 to 240 degrees and has a piece of kid leather on it right now that the previous owner may have used to protect the glass.
- 141 _____ Pair of mini brass padlocks: one marked UNION has a loop pinned to the hasp for a chain (not present), very good; the other marked YALE, very good.
- 142 _____ Wooden block planes and plane parts: three block planes all missing their blades, two extra wedges, etc.
- 143 _____ Pair of large dies for cutting leather circles one is 2 3/4-inch in diameter and it is very good; the other is 3-inch diameter and has a few dings at cutting edge that will need to be worked out.
- 144 _____ Three augers: two bung augers and a nice tapered reamer with deep touch marks, all are good or better.
- 145 _____ Unusual wooden tool with leather carrying strap wooden board with a spring-loaded caps at each end of the board that each have the name ??? stamped into them. We believe this is a device used to carry school books. It is very good overall.
- 146 _____ Lot: Archimedes drill, appears to be English, very good but needing bits; a three-pronged well hook with one broken hook; a small screwdriver for split nuts like those used on early saws, some patches of rust, very good overall.
- 147 _____ Lot: Early centrifuge for testing cream, needs the four tubes the cream would go in; a knife sharpener; and hand cranked egg beater.
- 148 _____ Pair of wooden rolling pins, both very good.
- 149 _____ Lot: two waffle irons, one with original base has original finish peeling and has rust, the other is missing both the base and the handle; plus an IDEAL riveter, very good.
- 150 _____ Old wooden tool chest measures 39 x 18 x 19 not including the wooden brackets that the rope handles pass through, bottom has had a mouse in one corner and bottom could stand to be replaced, no trays or tills, good overall.
- 151 _____ Pair of WHITNEY METAL TOOL CO ROCKFORD ILL long handled 1-inch hex wrenches one has named spelled out as above is 19-inches long overall; the other is 17-inches and is marked WHITNEY NO 10-3. Both have slightly bent handles
- 152 _____ Lot: KRAEUTER leather punch; ice chipper with iron handle; BARBERS SPECIAL razor hone; tool that resembles a logger's race knife; and a wall-paper trimmer.
- 153 _____ Lot: 10-inch drawknife with some light rust; double ended hex socket; open ended wrench and two double open ends one has number 6391 cast into handle.
- 154 _____ Lot: Fine Stanley HANDYMAN saw set with intact decal; ink eraser marked W.U. TEL CO and a small stitching wheel.
- 155 _____ Lot: One leg from a Winchester 7-inch plier this one marked with a good Winchester logo and the model 2407 7"; a Winchester 1/4-inch socket chisel, wooden handle is missing and socket has been hammered on; and an unknown make pair of pliers marked GERMANY.

- 156 _____ Two W. BUTCHER gouges, both need de-rusting and regrinds at business ends; an unknown make 1/8-inch mortising chisels that needs end reworked; an L&IJ WHITE tang chisel; and a STANDARD socketed butt chisel that needs a wooden handle.
- 157 _____ Unusual pair C.S. OSBORNE 14-inch gas pliers; and 10-inch FULTON nippers, both have light rust.
- 158 _____ Pair of implement wrenches: fine REMINGTON that still has most of its original black japanning; and a very good VULCAN PLOW CO. 95 EVANSVILLE IND, very good.
- 159 _____ Pair of 8-inch KEEN KUTTER nippers and a nice bench stop with intact spring.
- 160 _____ Stanley #6 iron fore plane, later model, fine japanning and fine wood, sat in a damp box so there's rust on the left side near the toe and on the sole, cleaning will make it usable but there is almost certainly going to be some pitting.
- 161 _____ Unknown make iron saw vise with clamp that allows user to mount it to a table or bench, complete and very good; plus a Millers Falls lever-type saw set, very good.
- 162 _____ Stanley #46 skew bladed plow plane, later model with both fence and sliding section, the fence is missing the rosewood wear strip, comes with a nice match blade, will make a very good user.
- 163 _____ Like new Millers Falls No. 2 auger handle; and a GLOBE drawknife, first we can recall with this name on it, very good.
- 164 _____ Three iron bench planes including Millers Falls #14 jack plane, complete and very good.
- 165 _____ Small froe with 7-inch blade likely a basket maker's model, very good.
- 166 _____ Stanley #45 combination plow plane with 2-row cutter box of blades. This is an early nickel plated #45 with the floral casting, and S foundry marks, comes with all three main sections, set of long rods, one depth stop and a double row cutter box with 22 total blades, needs slitter, cam and short rods to complete. A very good usable plane with fine, later cutter box full of blades, the cardboard sleeve on the cutter box is from a Stanley-made WARDS or CRAFTSMAN cutter set.
- 167 _____ Pair of drawknives: 10-inch L&IJ WHITE cooper or carriage maker's drawknife, very good overall; and an unknown make 9-inch model with light to moderate pitting.
- 168 _____ Lot: Stanley 100 PLUS No. 610 hand drill with partial decal on handle, fine overall; unknown make double spokeshave with flat and round bottoms, very good; and an unknown make leather shave with radiused bottom.
- 169 _____ Lot: fine HOOK SCRAPER CO. NO. 3425; SHELTON unbreakable block plane PAT PEND, very good; HAPPY TIME pressed steel block plane, very good; Stanley HANDYMAN H1248 low angle iron block plane, very good; and a 5-inch iron block plane that may have come out of a child's tool kit, very good.
- 170 _____ Lot: Two hanging spring scales, one marked LF&C; a small wooden handled hand vise; CRESCENT TOOL CO. NO. 264 specialty crimping or wire cutting pliers; and a 1 1/2-inch wooden auger bit for use in a drill press.
- 171 _____ Lot: adjustable bitstock washer cutter; H.A. PAGE BOSTON (listed in 1879 Boston Directory as Dry Goods Merchants) sliding bevel with 8.25-inch blade, locking thumb screw may be a replacement; rosewood handled try square with pitted blade; and leather-cased tape cloth tape measure with worn case and even more worn tape.
- 172 _____ Medium sized bench grinder in red paint, needs a tool rest, and a drop of oil.
- 173 _____ Sears Young Carpenter cedar project set, a bunch of small cedar boards for budding carpenter to make things out of, there are few small pieces of sandpaper and a small bag of brads to nail them together with.
- 174 _____ Three wood planes: unknown make No. 22 hollow with improper wedge, will clean to usable condition; UNION FACTORY H. CHAPIN No. 171, 7/8-inch match plane, inside fence is chipped and cracked near heel, can be restored to usable condition; and an OGONTZ 15-inch wooden jack plane that is missing the top 1/2 of the tote, blade and chip breaker have light to moderate rust.

- 175 _____ Pair of saw vises that can be mounted to a bench or table; one has number 130 cast into jaw; both are complete but need cleaning.
- 176 _____ Pair of 2-speed Millers Falls breast drills: one with 3-jaw chuck is complete and all the gear teeth are good, just needs a good cleaning; the other is a No. 12 and has a 2-jaw chuck. It is missing the auxiliary handle, will clean to very good.
- 177 _____ Lot of six assorted ratchet braces, a few have light rust.
- 178 _____ Lot of 18 assorted wood auger bits, two of the longer six have had the tangs cut off; the regular sized bits are all very good.
- 179 _____ Luther Grinder Co. hand cranked bench grinder, complete with tool rest, needs cleaning and a bit of oil.
- 180- _____ TBA**
- 184**
- 185 _____ Five tool books including reprints: The American Axe & Tool Co. MWTCA Reprint; Illustration of Trades by Charles Tomlinson; Eighth Edition Catalogue of Alex. Mathieson & Sons, Limited Saracen Tool Works, Glasgow reprinted by Ken Roberts; Tools and Technologies America's Wooden Age by Kababian & Lipke; and TOOLS MACHINERY BLACKSMITHS SUPPLIES Sears, Roebuck & Co.
